PROFESSIONAL SUMMARY

Entry-level Data Science candidate with a foundation in Python programming, statistics, data analysis, and data visualization. Interested in transforming raw data into meaningful insights through data cleaning, exploratory data analysis, statistical reasoning, and clear visual reporting. Eager to contribute analytical thinking and problem-solving skills to practical business and data-driven projects.

CORE SKILLS & TOOLS

Programming: Python

Data Visualization: Matplotlib, Seaborn

Statistics: Mean, Median, Mode, Variance, Standard Deviation, Correlation

Spreadsheets & Reporting: Microsoft Excel, Charts, Pivot Tables

Data Analysis: Pandas, NumPy

Databases: SQL

Data Science Workflow: Data Cleaning, EDA, Data Interpretation

Machine Learning: Core concepts, model evaluation basics

ACADEMIC PROJECT

Construction Equipment Rental Management System | Academic Project

- Designed a project concept for managing construction equipment rentals, with a focus on organizing equipment details and rental-related information.
- Project scope can include equipment listings, availability, rental records, and customer/booking information.
- Developed the backend using Python (Django) to handle equipment data, booking requests, and page routing..

TECHNICAL SKILLS & CURRENT LEARNING

- Python for data handling, functions, and basic programming tasks.
- Statistical foundations for understanding distributions, spread, sampling, hypothesis testing, and relationships between variables.
- Data preparation and exploratory analysis using tabular datasets.
- Creating charts and communicating patterns, comparisons, and trends clearly.
- SQL fundamentals for querying and working with structured data.

EDUCATION

Degree / Board	Institute	University/Board	Year	Score
BCA	Shri Sarvajanik BCA & PGDCA College, Mehsana	HNGU	2026	CGPA: 7.41
Class XII	Shri Para Secondary & Higher Secondary School	GSEB (HSC)	2023	65.29%
Class X	Shri Para Secondary & Higher Secondary School	GSEB (SSC)	2021	67.67%

RELEVANT STRENGTHS

Analytical thinking • Problem-solving • Clear communication
